

PB500 ANNUAL CERTIFICATE OF CALIBRATION

Customer	PAC Serial No	Expiry Date	Certificate No
That Event Company Ltd	25E-0576	02-Apr-25	60049911

The measurements reported in this certificate were carried out using equipment whose measured value are traceable to National Standards, where these exist.

The ambient temperature throughout the calibration was 18-22 degrees.

UNIT UNDER TEST	PB500
TEST STATUS	Complete and correct

Earth Bond Test	Actual Value (Ohm)
PASS	0.25 ohms
FAIL	0.35 ohms
Insulation Resistance	Actual Value (Mohm)
PASS	2.2 Mohms
FAIL	1.8 Mohms
DC VOLTAGE	PASS (450 V) Minimum

Electrical safety tests were carried out and found to be satisfactory.

Equipment Used for Calibration

PAC500 Test Rig	Serial No: K02-0184	Certificate No: SEA073168/2R/1
PB500 Test Rig	Serial No: TS957	Certificate No: SEA065611/2R/1

A record of this certificate is kept at Parker Bell Instruments Ltd
